1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-68 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1,37,52, it is unclear whether the coating sets are included in the outer region, and where the bonding region and outer region are in relation to the substrate and one another, rendering claims 1-68 indefinite.

In claim 2, 36, 38,53 it is unclear which metal is being referred to, rendering these claims indefinite. Is it the metal in the metal nitride or metal aluminum nitride?

Claim 12 appears to be a duplicate of claim 8.

In claims 13, 14, 44, it is unclear whether these sets are in the bonding region or outer region, rendering claims 13-19,44 indefinite.

The Markush group in claims 28, 46, 60 are unclear, rendering the claim indefinite.

In claims 30-33, 48-51, 62—65, there is no antecedent basis for titanium, rendering claims 30-33 indefinite.

3. No prior art has been applied to claims 1-68 because of lack of clarity.

Art Unit: 1775

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 124, 125, 127, 128 are rejected under 35 U.S.C. 102(b) as being anticipated by Kukino et al (5,700,551) or Hashimoto et al (6,077,596).

Kukino et al or Hashimoto et al disclose the claimed components that may be alternated on a member.

6. Claims 124-128 are rejected under 35 U.S.C. 102(b) as being anticipated by Selinder et al (6,102,357)

Selinder et al et al discloses the claimed components that may be alternated on a member.
